*Reducing Your Electric Costs through Power Quality & Power Management*

## Utility Audit Program

In some markets research  
has found:

70 %

of companies have billing errors,  
overcharges, or can achieve savings  
on their utility service

90 %

of non-profits have billing errors,  
overcharges, or can achieve savings  
on their utility service

We have saved our clients millions of dollars. Here are some examples:

Over \$4.0 Million for New York State agencies and municipalities

\$1.0 Million for Service Corporation International, the largest operator of funeral homes and crematories

\$1.0 Million for a not-for-profit organization that assists mentally and developmentally disadvantaged people

\$2.5 Million for a National Telecom Carrier

\$700,000 for the City of Schenectady, New York

\$125,000 for a plumbing and heating distributor

\$250,000 for a rural school district

### About Cost Control

Since being founded in 1991, Cost Control Associates has helped clients across all industry segments reduce energy and telecom costs for the full 18 years of its existence. Our clients range in size from small businesses to large Fortune 1000 firms with scores of locations. Cost Control Associates' clients include state, county, and municipal governments, school systems, retail and service companies, manufacturers, and a variety of other organizations. We have performed work in all 50 states in the U.S. and certain provinces of Canada as well.

Cost Control Associates has filed thousands of refund claims with service providers resulting in the recovery of millions of dollars for its clients. In addition, the firm has successfully negotiated thousands of rate reductions and cost-savings changes in contract and/or tariff terms for our clients. We rank among the best in terms of refund recovery and cost-savings realized by our clients. Over 90% of our clients realize refunds and/or savings from our programs.

Our successful track record is the result of our detailed approach combined with the knowledge acquired by our very talented group of analysts that have available to them highly effective tools to maximize refunds and cost savings for clients. We are well versed in the rate options that are available and know where and how to obtain the most favorable terms for your organization.

Cost Control Associates is the only firm endorsed by both the Florida Association of Counties and National Association of Counties. In addition, CCA is the only energy audit firm invited to become a Member Contractor with the National Joint Powers Alliance (NJPA).

### What is Eligible for an Audit

Electricity

Natural Gas

Telecom

Merchant Service

### The Audit Process

#### Data Gathering

- Gather account bill to be audited
- Fill out company profile and questionnaire
- Execute services agreement and authorization

#### Audit

- Review bills
- Identify overcharges, metering errors, duplicate charges, and other billing issues
- Analyze the utility rate, identify alternative options, make recommendations

#### Implementation

- Process reimbursements
- Follow through on rate/supply recommendation
- Ongoing monitoring
